

Stout ALUMNI NEWSLETTER

VOL. I, NO. 1

THE STOUT INSTITUTE, MENOMONIE, WIS.

MAY 1, 1953

Around the Campus

Construction of the new Stout Institute library is well underway, with occupancy possible for the next college year. The building is located on the block south of Ninth Avenue, between Second and Third Streets. For a time, after the original houses were moved, the property was used as a parking lot.

Cost of the project will be approximately \$600,000 and will provide space for 60,000 volumes together with such long-desired facilities as a reserve reading room, a memorial room, and seminar rooms.

The building is to be of brick and steel construction and will be of the most modern arrangement. Architects are Foeller, Schober, Berners, Safford and Jahn, a Green Bay firm of specialists in library planning.

Facing Second street, the front of the building will be 30 feet from the curb and the north wall will be 40 feet from the Ninth avenue. The front of the building will have an overall width of 121 feet and depth for 128 feet.

Entrance will be through a vestibule into a lobby to the right of which will be a Memorial room and to the rear of which will be the circulation lobby with the card catalogue files and the main desk.

To the left of this lobby will be the entrance to the combined main and reserve reading room seating 250 persons. On the second street end of the reading room there will be the periodical room. The main book stacks will be to the rear of the circulation lobby and running along the south side of the reading room.

These stacks will provide space for 45,000

FROM PRESIDENT FRYKLUND

Dear Fellow Members:

In our society, it is certainly an honor to be asked to participate in a launching ceremony. Thus I am very proud that the Executive Secretary of the National Stout Institute Alumni Association and the other Stout faculty members responsible for this publication have asked me to launch *The Stout Alumni Newsletter*.

We at the college are indeed happy to provide this new medium, which is designed to serve our alumni throughout the world. But we feel that its rewards will be two-fold. Not only will *The Alumni Newsletter* strengthen the ties which join the members of our widely-separated family of graduates, but it will also bring news of alumni accomplishments back to our campus.

Just as you alumni enjoy learning the whereabouts and achievements of your former classmates, we at the college enjoy knowing the progress of our former students. It is in achieving just such communication that an alumni association renders its greatest service. And it is to facilitate such service that this publication has been prepared.

Therefore, let us launch *The Stout Alumni Newsletter* on her maiden voyage. She is a vessel carrying a delightful cargo in a worthy cause. May I wish to her and to her crew a most pleasant and extended cruise.

Sincerely Yours,
Verne C. Fryklund
President

News Of The Classes

CLASS OF 1953

Ralph E. Smith is a technical sergeant with Headquarters of the 15th Division of the Air Force at March Air Force Base, California.

William H. Sherman is attending the Artillery School at Fort Bliss, Texas.

John F. Swant (M.S.) is Director of Vocational and Adult Education at Beaver Dam, Wisconsin; and also president of the Beaver Dam Conservation Inc., and County Chairman of the First Aid.

John Wilson is teaching in the vocational school at Madison, Wisconsin.

Continued on page 2

CLASS OF 1952

Earl R. Herring is a teacher of industrial arts at the State Teacher's College at Minot, North Dakota. His wife, Ruth, was the former secretary in the Registrar's Office at Stout.

William E. Hinterthuer is a Technical Assistant at the Institute of Paper Chemistry at Appleton, Wisconsin.

Larry Mosher teaches four classes of industrial arts plus a driver training course at Harmony, Minnesota. He also coaches the "B" football and basketball squads.

Mrs. Natalie Stapleton formerly taught at Port Edwards, Wisconsin. She now lives at Fort Campbell, Kentucky where her husband is stationed while in service.

Mr. & Mrs. Donald Landsverk at the present time are at Fort Lewis, where Don is stationed while serving in the armed forces. His job is testing recruits coming into the army. Mrs. Landsverk is the former Donna Gardiner.

Amold R. Ballinger is Resident Inspector at Kurz and Root Company for the Corps of Engineers at Appleton, Wisconsin; he also is an Inspector at Northwest Engineering Company, Green Bay, Wisconsin.

Patricia Peterson Wensel was married December 1952 to William A. Wensel at the Congregational Church in Menomonie, Wisconsin. They now live in Pepin, Wisconsin.

Beverly Hedlund is a student dietitian at the Harvard Medical University Hospital in Boston, Mass.

Louise I. Neumann is a dietitic intern at the St. Louis University Group Hospital, St. Louis, Missouri.

Mrs. Ruth L. Kraft the former Ruth Larson lives in Rapid City, South Dakota where her husband is head cashier of the bank.

Doris Haldeman teaches home economics and sophomore English at Kendall, Wisconsin.

Dorothy Knutson is a serving dietitic internship at the University Hospital and attending Ohio State University at Columbus, Ohio. She is working on her master's degree.

Howard Knop is attending officer candidate school at Newport, Rhode Island.

Mrs. Lawrence Ryder (nee Beverly Brehmer) teaches home economics and also biology at Woodville; she lives in Menomonie, Wisconsin.

Dorothy Hilton is a home economics teacher in a rural vocational school at Galesville, Wisconsin.

Harriet Homer teaches in Holman, Wisconsin.

Robert J. Berg is a substitute teacher in the Milwaukee school system, Milwaukee, Wisconsin.

Bill Banks is attending officers candidate school at Newport, Rhode Island.

Milan Huley is stationed at Fort Monmouth, New Jersey.

Bert Jaeger is an instructor of industrial arts at Pembine, Wisconsin.

Marge Hedburg is a home economics teacher at Drummond, Wisconsin.

Donald Sargent is a drawing instructor at Long Beach, California.

Marvin Desrocher is serving in the Navy at Whiting Field, Florida. He expects to get his wings in Naval Aviation in about a year.

Gerda Ravnholt is teaching in the junior-senior high school at Quincy, California.

Joanne Buboltz is a dietary intern at Barnes Hospital in St. Louis, Missouri.

Glen G. Brooks teaches woodwork, physics and science at Butternut, Wisconsin.

Elizabeth Holeneny is a dietitic intern at Water Reed Army Medical Center in Washington, D. C.

Robert Miller is attending Naval Officers Candidate School at Newport, Rhode Island.

Ronald Mittlestadt is Principal of Almont high school, Almont, Michigan.

Karen Anderson is a clothing teacher at Washington Jr. High School in Green Bay, Wisconsin.

Kathryn Ziehm is head of a two-teacher home economics department at Watertown, Wisconsin.

Mrs. Barbara Johnson Perry is a teacher at Prairie du Sac, Wisconsin; she is also a school nurse and guidance counselor for girls.

Shirley Carlson works in the Research and Development Laboratory at Pillsbury Mills, Inc., in Minneapolis, Minnesota.

Roman L. Weinzierl is a instructor of industrial arts and is assistant football and baseball coach at Goodman, Wisconsin.

Mr. & Mrs. Wayne Coleman are living in Menomonie, Wisconsin. Mrs. Coleman is the former Shirley Dover, and she teaches at the Dunn County School of Agriculture.

Joan Braun is a home economics teacher at Athens, Wisconsin.

Patricia Schreiner is a home economics teacher at Janesville, Wisconsin.

Joan Schwanermann is a home economics teacher at Naslele, Washington.

James Anderson is an instructor of woodwork and drawing at Drummond, Wisconsin.

Marjorie Forsman Kniivila is an instructor of home economics at Deckerville, Michigan. She is also supervisor of the hot lunch program and advisor for the F. H. A. and the Jr. Class.

Elizabeth Sevfert has completed a 6 months course of dietitic internship at Kansas City, Missouri.

Stanley I. Russell has recently developed a refrigeration course for the Des Moines High School.

Dean E. Cornwell teaches hand woodwork at the Trawbridge Grade School in Milwaukee, Wisconsin.

Elaine Blaser teaches grade school, high school and an adult class in Whitehall, Wisconsin.

Roland J. Kragstad (M. S.) is an instructor of drafting and metal work at Fond du Lac, Wisconsin, he is also the advisor for a club of 35 ninth grade boys.

Continued on page 6

Factors for College Success

A frequent and welcome source of students enrolling at Stout is the influence of Stout graduates now in the field. It has been frequently said, and with truth, that, "The greatest advertising which The Stout Institute receives is through the recommendations of its alumni."

To inform these alumni that the college is genuinely grateful for their efforts in directing students to Stout, and to provide concrete information answering many questions often posed by prospective enrollees, the following has been developed:

What are the requisites for a student's success at Stout? The following statements suggest some factors which are desirable in any student seeking admission:

1. Those who rank in the lower third of their high school graduating class have only 1 to 5 to achieve a "C" average or better.
2. Having had one or two units of high school industrial arts for boys may be desirable, but not essential. Interest rather than experience in the areas of our specialties is important.
3. As college mathematics through trigonometry is required of all industrial education majors at Stout, men entrants should either have experienced reasonable success in high school elementary algebra or have demonstrated some aptitude for algebra in other ways.
4. Success in other high school subjects is as important as success in home economics or industrial arts in predicting scholastic success at Stout.

Milwaukee Chapter is Host

The Milwaukee Chapter of the National Stout Alumni Association played the very congenial and helpful host to Stout alumni attending the WEA convention in that city.

A delicious turkey dinner highlighted the evening and all guests had a wonderful time. Kenneth Schank, well-known Stout alumnus, was toastmaster for the evening. C. A. Bowman spoke of Stout's present status and of his emotions upon retiring from the faculty.

Group singing, renewal of acquaintanceships and reminiscences brought the successful affair to a close.

ATTENTION SERVICEMEN

The National Stout Institute Alumni Association will gladly mail the weekly *Stoutonia* to any and all former Stout students who are in the armed forces if their names and addresses are made known to the alumni office.

Ship Citation to Ericson

EMANUEL E. ERICSON, Professor of Industrial Arts and Assistant Director of University Extension, Santa Barbara College, University of California, we of THE SHIP are pleased and honored by this opportunity to recognize publicly your distinguished service to education.

Professor Erickson is credited with the responsibility of having trained more industrial arts teachers than any other man in California. He also was the spark plug in connection with the starting of the building program on the Mesa campus and the planning of the Industrial Arts Department buildings.

The Ship Organization is made up of commercial exhibitors who are engaged in the promotion of technical and industrial equipment, electronics, all phases of industrial arts and photography equipment, and who, through their activity in the American Vocational Association, are interested in the education of the youth, through the use of technical equipment, and in the establishment of a technical education program in America.

The citation is a yearly presentation, made at the time all the members of the organization meet for an exhibition of their products.

A Stout Institute graduate of 1919, Professor Emanuel E. Erickson, has been made recipient of the highly prized "Ship's Citation" awarded for outstanding national service and leadership in the field of industrial arts.

Boston, Massachusetts—"The home of the bean and the cod"—was the site of a Stout alumni breakfast at the Bradford Hotel on December 2. Attending were Stout alumni participating in the AVA convention, also held in Boston.

Dr. Bob Rudiger, alumni secretary, introduced alumni members and their guests. President Verne C. Fryklund spoke to the group, explaining many changes which are taking place at the college. A lively discussion period followed, including the showing of pictures of campus improvements.

A total of 36 alumni, from all parts of the nation, were present for the breakfast and to live again in old times on the Stout campus.

EXTRA! EXTRA! EXTRA!

The National Alumni Association is now issuing joint memberships to husbands and wives who are both Stout alumni. Cost of this joint membership is the same as that of a single membership.

All alumni whose marital status qualifies them for this savings plan are urged to take advantage of the offer. All that the alumni executive secretary requests is that all applications for joint memberships contain both the husbands name and his wife's maiden name and year of graduation of each so that the alumni office files will be accurate and up-to-date.

Detroit Chapter News

The following interesting letter, reporting on the type of activities which make an alumni chapter a living organization, is reported by Marian Stevens, corresponding secretary of the Metropolitan Detroit Stout Alumni Association:

Dear Dr. Rudiger:

As Corresponding Secretary of the Metropolitan Detroit Stout Alumni Association, I wish to send you the following account of our Mid-winter party for your newsletter.

The Metropolitan Detroit Stout Alumni Association held its annual mid-winter party entitled, "The Tacky Drag," at the Birmingham Community Hall, in a setting reminiscent of the past for Stout graduates.

Home talent of professional degree was in evidence in the skits and musical numbers which followed a sumptuous dinner. Drawing of door prizes, card playing and visiting with old friends completed the evening's entertainment.

Harry Keller kept the ball rolling as master of ceremonies. With the aid of Mrs. Keller, Mrs. Wm. Peterson, Mr. & Mrs. Walt Tiede, Mr. & Mrs. Henry Hulter and Mr. & Mrs. Marlo McCullough, he planned and made possible this delightful party.

It was so very pleasant to renew acquaintances with the following Stout friends: Vernetta & Francis Shaw, Emma & Ira Madden, Betty & Fred Decker, Marion & Fred Curran, Irma & Floyd Burgess, Marion & Harry Stevens, Mildred & Charlie Crydermann, Irene & Evoy McCullough, Orvetta & Hugh Motzaw, Lib & Lefty Hanson, Leola & Ole Olesen, Gladys & Marlo McCullough.

Virginia & Walt Tiede, Moraig & Harry Keller, Gladys & John Weimer, Clara & Charles Strong, Verna & Wm. Peterson, Irma & Frank Mann, Peg & Hand Hulter, Blundie & Walt Ny-lund, Elaine & LeRoy Charlick, Ole Moe, Wilma & Fred Blair, Audrey & Adrian Pollock, Jeannette & Ward Smith, Edla & Frank Hauck, Esther & Harold Sachman, Mildred & Vallie Elvers, Helen & Bill Smith, Carol & Robert Houghton, Viola & Hunkie Hellum, Lillian & Carl Gairc, Nelda & Estall Curry, Ierne & Clarence Soberg, Alma & Ed Zych, Florence & Orvill Heft, Mary & Elmer Stindt, Irene & Sam Smith, Mary & Huck Decker, Marg & Al Keiner, Josephine & Charlie Braun, Jo & Steve Vanek, Doris & Harlyn Olsen, Blanche & Gib Tre-week, Violet & Louie Smith, Pat & George Kinsler, Helen & Jim Christopherson, Millie & Frank Hopper, Ruth & Bob Martin, Alice & Charlie Pozzini, Betty & Leo Styer, Lucille & Fred Doetze, Frances & Jack Brandvold, Joe & Harold Silvius, and Marie & Red Fraser.

Yours truly,
Marian Stevens

STOUT ALUMNI NEWSLETTER

Published by

The Stout Institute
at Menomonie, Wisconsin

R. Rudiger	Alumni Sec.
L. Whydotski	Production

Continued from page 1

volumes. The librarians' office and work room will open off the south west corner of the stack room.

Immediately above the first floor stack room will be a mezzanine stack room of equal size with space for 42,750 volumes, a sound-proof typing room and a staff lounge.

On the ground floor will be the stack room for text books with a book repair area and typing area, four large seminar rooms, audio visual room, a receiving and storage room, two other storage rooms, a text book exhibit room, special work room, building service room and toilets.

Persons reading this newsletter will undoubtedly be interested in information concerning the coming Stout Institute summer session, June 15 to July 24, especially as it pertains to housing and to changes in the Plan B technique of the Graduate Program.

Housing at Menomonie does not pose anything like the problem found in many large university cities at summer session time. Veteran housing ranges from \$25.00 down to \$20.00 per month, with rent cost decreasing as family size increases.

Changes in the graduate B plan are described at length in the 1952-54 Stout Institute Regular Session Bulletin (pp. 109-122). However, the revisions are also outlined below:

The purpose of the revised Plan (B) is to permit graduate students an opportunity to secure additional course work with an emphasis on master teacher objectives. Students electing this plan must complete a total of 30 semester hours of course work, including the courses: Ed. 501 Research Procedures; I.E. 510 Problems in Industrial Education and Ed. 561 Educational Statistics if not included in undergraduate courses.

Plan (B) includes the preparation of a written report, in addition to or in conjunction with the regular course work in one of the 500 series graduates courses. The report must be acceptable to the instructor of the graduate course in terms of subject, content, and form. One typewritten copy must be presented to the instructor at least one week prior to the end of the course, or at such time as the instructor may designate. Written notice that the paper has been completed and is acceptable, signed by the instructor in charge of the course, must be filed in the graduate office. The typewritten report must be filed in the instructor's office.

Your Secretary Reports:

The years come and go and even political parties finally change in Washington, but many of the civil service employees of The Stout Institute stay right on the job, rendering the excellent service needed to keep the college in good running order.

A man of 43 years of such service is Fred Retzloff, full-time custodian at the college since 1910 and a part-time employee for some years before that. Fred started literally from "the ground up," working with his father to sweep the basement of the school when Fred was but ten years old.

August Domke, on the job as gymnasium costodian and general athletic handyman, has 30 years of service to his credit. "Augie is still as spry and cheerful as he was when many of the 'older' alumni were in the flaming youth.

Bill Neubauer, congenial elevator operator in the Home Economics building-now Harvey Hall-still keeps his job, which has many "ups and downs" about it as when he began 21 years ago. The years have in no way, however, lessened Bill's friendly spirit and cheerful outlook.

Reserving the concluding spot for the ladies, we find Olga Brekke, pie-maker supreme, still on the job in the cafeteria. After many years of making culinary delights and many miles of pie crust, Olga still turns out desserts that are tops among the students.

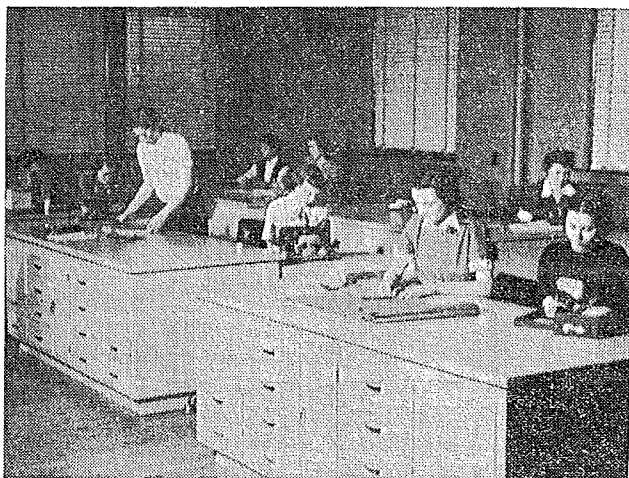

Yes, a staff of trained, loyal, competent civil service employees is a vital cog in the smoothly-operating machine of a modern college. The faithful employee described above, together with their many colleagues of fewer years tenure, deserve a world of credit for the services which they have rendered to all of us.

Alumni who have not visited The Stout Institute campus for a number of years may wonder as to the whereabouts of certain of their former teachers.

A number of faculty members have retired and have had conferred upon them the little title of "Emeritus" by the Board of Trustees of The Stout Institute. Former President Burton E. Nelson, who still resides in Menomonie, holds the rank of president emeritus.

Other emeritus appointments have also been made. Ruth E. Michaels, who now makes her home in Chicago, reports that she still does much traveling. Miss Lillian Carson of the home economics department still owns the Grey Barn apartments in Menomonie and lives there.

Miss Mabel Leedom, formerly of The Stout Institute chemistry department, maintains her home in Menomonie. Miss Mary McCalmont, a recent faculty person to retire, resides at her home in Menomonie and takes a very active interest in church work.

One of the New Sewing Laboratories.

Among the men, a number have recently retired and received the emeritus title. Clyde A. Bowman, who retired in January after 33 years as dean of industrial education, is busy with plans to make California his permanent home.

H. M. Hansen of the woodworking department still owns his home in Menomonie but he and Mrs. Hansen are spending the winter in Florida. F. E. Tustison, who retired in 1951, is also a Menomonie home owner but, as a great trailer enthusiast, is spending the winter in Arizona.

Fred Curran, who retired in 1941, has a recently-constructed home in Menomonie. However, he and Mrs. Curran enjoy Florida's balmy climate during the winter.

Other emeritus faculty persons but those whose present location or activities are less-known to the editors of this bulletin, include: Clara Broughton, formerly of home economics education; Freda Bachmann, biological science; M. Winona Cruise, food and nutrition; Alice Houston, director of nursery school; and Mabel C. Rogers,

Among deceased members of The Stout Institute staff are Harry F. Good, electricity and physics; Arthur G. Brown, industrial education and guidance; Bruce Antrim, library; Louise Buchanan, foods; B. M. Funk, business manager; Daniel Green, drawing; and William Baker, graphic arts and also former National Alumni Secretary.

A new life member of the National Stout Institute Alumni Association is Jean Bulmer, a 1951 home economics graduate. Jean, who took out her life membership last fall, reports that she is teaching foods to the 7th and 9th grades in the Wausau Junior High School.

In filling out her alumni questionnaire, Miss Bulmer reports the following Stout Institute alumni in her school: S. R. Slade ('34), principal of Wausau Junior High School; George Guenther ('23), teaching industrial arts at that school; and George Biwek ('32) the coach at that same school.

Your Secretary Reports

Continued from page 5

Did you attend Stout's 1952 homecoming??? Well, 192 loyal alumni signed the attendance book and enjoyed a wonderful time with the bonfire, parade, and—best of all—Stout's 38 to 0 victory over Eau Claire, Stout's friendly but energetic rivals.

Graduates attending who held the distinction of having attended Stout long ago included Dean C. A. Bowman, '09 and Mrs. W. R. Kirk, '09. Other graduates of years for past were Gerhard Skogsmark, '15; Dr. J. E. Ray, '22; Virginia Ray, '24; and Wes Burdicke '24.

Attending from the greatest distance was Robert O. Johnson '38, who came from the Naval Air Station, Pawtucket River, Maryland.

GRADS OF 1943: Plan to attend the 1953 homecoming celebration! The Stout Tea Room has been reserved for a 12 o'clock luncheon to provide a wonderful opportunity to renew acquaintances with your former classmates.

Keep your address up to date with the Alumni office so that you will receive a card next fall to make reservations for this reunion. Fellows and gals who, through wartime service, marriage, transfer, or other reasons, started with this class, but were unable to be graduated in 1943, are also urged to attend the reunion. Don't forget to plan for this reunion.

The Alumni Secretary Reports:

As the organization and operation of local chapters is the backbone of the National Alumni Association, the executive secretary sends out the following message to areas where Stout graduates reside and where only a little effort is necessary to start the ball rolling toward the formation of a new, lively, worthwhile chapter:

Let's make this the year to organize a local Stout Institute Alumni Chapter in your community. By organizing a group of Stout grads you will be able to recapture the school spirit of your Alma Mater.

Many grads have said at conventions and gatherings, "How about organizing our Stout grads in this area this year?" However, this seems to be as far as it goes. Make this year be an exception—find a few interested grads and meet as a nucleus group. Plan a simple dinner, luncheon, or picnic for all the alumni in your area. At such a time elect officers and appoint some basic committees for future get-togethers.

Your national office will provide such information as addresses of grads in your area and suggestions as to how to go about setting up a local chapter.

We in the national office are very interested in keeping our alumni together. Let us hear from you.

Your alumni secretary,
Robert Rudiger

News of the Classes

Continued from page 2

Harry Hill is an instructor of driver training and Merit Badger Counselor for Boy Scouts at Chippewa Falls, Wisconsin.

Richard Smock is a driver training instructor at Chicago, Illinois.

Mr. & Mrs. R. Dean Free (nee Faye Lehner) live at Mosinee, Wisconsin. Dean teaches industrial arts and driver training, and Faye teaches home economics and general science.

Bob McBride teaches in Port Huron, Michigan.

Curtis Gehling teaches auto mechanics in Oshkosh, Wisconsin.

CLASS OF 1951

Fred Plonsky is district sales manager at the Delta Tool Company in Dallas, Texas.

Geraldine M. Raisler is employed at the hospital in Phoenixville, Pennsylvania where she works for the Ward Food Service.

Charles Mowbray teaches woodwork, metal work, and drawing in Monroe, Wisconsin.

Jerome Zelenka teaches woodwork, drawing, and electricity at Lincoln high school, Milwaukee, Wisconsin.

Alton P. Rigotti is superintendent of schools at Engadine, Michigan. Mrs. Rigotti is the former Clarice Jamieson.

Robert Morris teaches general shop, wood, metals, and drawing at Ingram, Wisconsin; he is also Scoutmaster of the local boy scout troupe.

Warren Wold is a draftsman at the Engineering Research Company in St. Paul, Minnesota.

Lorton P. Layman teaches in Wyattsville, Maryland at a school with an enrollment of 1700; he also is chairman of the Transportation Committee and instructor of the Rifle Club.

Robert Morley is a driver training instructor in the high school at Huron, Michigan; he also is assistant coach in baseball and wrestling.

Garth E. Wilcox teaches woodwork and drawing at the high school in Tomahawk, Wisconsin.

Lois E. Heike is a teacher of home economics at Augusta, Wisconsin.

Mr. & Mrs. Myron Lindgren are living in Kaukauna, Wisconsin. Myron works as a Sales and Service Engineer for the Kaukauna Machine Corporation. Mrs. Lindgren is the former Carol Brack.

Jean Bulmer teaches foods to 7th and 8th graders in the Wausau Jr. high school at Wausau, Wisconsin.

Eugene W. Tahlir is a route salesman for the Wards Baking Company in Rochester, Indiana.

Mrs. Edward A. Hanson (nee Jean Engebretson) is a homemaker at Eau Claire, Wisconsin.

Donald J. Straw teaches 7th and 9th grade metals, plastics, and leather at Canby, Minnesota.

Roger L. Randall is an instructor of industrial arts and athletic director at Clifton, Texas.

James W. Covey joined the Navy in June 1951. At the present time, Jim is going to Navy CIC School at Glenview, Illinois.

Donald A. Van Bramer teaches at the Grafton State School for the feeble minded at Grafton, North Dakota.

Roger Langraf is an industrial arts teacher at Chicago, Illinois.

Henry C. Tall is an industrial arts teacher in the Milwaukee Public School at Milwaukee, Wisconsin.

Jean Carswell is employed at the Research and Development Laboratory at Pillsbury Mills, Inc. in Minneapolis, Minnesota.

Mr. & Mrs. Russ Boettner live in Flint, Michigan. Russ is an instructor of metals and electricity. Mrs. Boettner is the former Jean Van Liew B.S. 1950.

Will Malone works for the Delta Power Tool Division of the Rockwell Manufacturing Company at Bellefontaine, Ohio.

Mr. & Mrs. Clarence Urankar are living in Milwaukee where Clarence teaches industrial arts. Mrs. Urankar is the former Barb Peck.

Louis Godla teaches at the Vocational School in Bladensburg, Maryland.

George Kinsler teaches in Lincoln Park, Michigan.

Donald Chartraw teaches at Laona, Wisconsin.

Lewis Mallow teaches at Wabeno, Wisconsin. Lt. Dave Randall is stationed at Fort Sill, Oklahoma.

Roland Wolfe is stationed at Aberdeen Proving Ground, Aberdeen, Maryland.

Ann Baker is working for her M.A. at the University of Wisconsin, Madison, Wisconsin.

David Pilon is an instructor at Sheboygan, Wisconsin.

Vaughn Stai teaches at the Technical high school in St. Cloud, Wisconsin. Mrs. Stai is the former Ruth Christensen.

CLASS OF 1950

Vern Heseland teaches 7th and 8th grade math and Science plus high school industrial arts at Eugene, Oregon.

Edward Binstock is an instructor of test blocks at Chanute Field, Illinois. Mrs. Binstock is the former Helen Kelly B.S. 1947.

Steve Grudichek teaches in Brawley, California.

T. H. Teppen is with the Delta Power Tool Division of the Rockwell Manufacturing Company in Kansas City, Missouri.

George Jensen is with the Delta Power Tool Division of the Rockwell Manufacturing Company in Fort Wayne, Indiana.

Darwin C. Sarra is with the Delta Power Tool Division of the Rockwell Manufacturing Company in Orlando, Florida.

Warren H. Richter is with the Delta Power Tool Division of the Rockwell Manufacturing Company in Denver, Colorado.

Louis Burmeister is with the Delta Power Tool Division of the Rockwell Manufacturing Company in Bellefontaine, Ohio.

Herb Meisner is with the Delta Power Tool Division of the Rockwell Manufacturing Company in Chicago, Illinois.

Walt Vernon teaches at the Vocational school in Kaukauna, Wisconsin.

Bill Baer is teaching in Beloit, Wisconsin.

Lowell Tufts (M.S.) is an instructor at Stillwater, Wisconsin.

Ardelle Kruger is at Madison General Hospital, Madison, Wisconsin.

Nancy Glenn works at Harry S. Manchesters Department Store, Madison, Wisconsin.

John Krock (M.S.) is teaching at Kirkland, Washington.

Ruth Johnson is with the Chippewa County Home Agent and lives at West Salem, Wisconsin.

Janet Rattjerr teaches at Medford, Wisconsin.

Pete Schellinger teaches printing at Southern Junior high school at Louisville, Kentucky.

Robert Ludtke is a vocational instructor at Henderson, Nevada.

Ellen McCarthy is a dietitian at Ancker Hospital in St. Paul, Minnesota.

Mrs. Joe Russell (nee Helen Helm) recently resigned her position of teaching home economics in the Mobridge high school, Mobridge, South Dakota. She is now in Trieste with her husband who is in service.

Naomi Wendt teaches home economics at the Janesville public high school at Janesville, Wisconsin.

Russell C. Tews teaches at the Steven Junior high school in Milwaukee, Wisconsin. Mrs. Tews, the former Helen Wolsey, teaches home economics at Whitefish Bay high school in Milwaukee, Wisconsin.

Robert Hendrickson was drafted into the service and served in Korea; he is now stationed in San Francisco, California.

John H. Lurquin is an industrial arts coordinator at the St. Paul's Indian Mission School at Marty, South Dakota.

Lloyd R. Gannegan is an instructor of the Junior and Senior high school at Aurora, Illinois.

Mrs. Donald Long (nee Ruby Ann Jarman) teaches at Brussels high school in Brussels, Wisconsin.

Alice Fechner is an Administrative Dietitian at Green Bay Wisconsin.

J. R. Payne teaches cabinetmaking at LaCrosse, Wisconsin.

Ray C. Doan is an instructor of Industrial arts and mathematics at the Ames Junior High school in St. Paul, Minnesota. Mrs. Doane is the former Shirley Waseen.

Mrs. Amory O. Moore, Jr. (nee Doris Zimmermann) is the Cafeteria Manager at Oregon Consolidated school in Madison, Wisconsin.

Robert G. Christianson is employed at Scott Air Force Base near Belleville, Illinois. He is serving as a Civilian Communications Instructor.

Margon C. Berg teaches driver training, woodwork, mechanical drawing and physics at Stanwood, Washington. Margon also plays with a small dance band called the Furious Faculty Five.

Mrs. Caroline Lanzer Nelson is a member of Duncan Creek Community Womans Club at New Auburn, Wisconsin.

Mrs. Gerald Solie (nee Marilyn Erickson) works as an Assistant Dietitian at Barnes Hospital in St. Louis, Missouri.

Margaret Perman teaches home economics at Stanley, Wisconsin.

Robert P. Gray is teaching industrial arts and driver education at Thorp, Wisconsin. His wife is the former Francis Knight.

Norman A. Lenius is employed in the Personnel Department at the Christy Corporation of Sturgeon Bay, Wisconsin.

Ward M. Cowles (M.S.) teaches in Waterloo, Iowa. He is also the secretary of the Waterloo Club of Printing House Craftsmen at Waterloo. His wife, Esther, used to work in the offices of Dean Price and Mr. Wigen.

Stan Kendall joined the Delta Power Tool Division of Rockwell Manufacturing Company in Spokane Washington. He formerly taught at Weaverville, California.

James R. Young is Assistant Director of Mill Lake Camp, Michigan. This is a school camping program by the Dearborn Michigan Board of Education.

Mrs. Gertrude Samide Taggart. After the death of her husband was appointed Sheriff of Onondaga County by Governor Rennebaum to complete her husband's unexpired term. She lives in Rhineland, Wisconsin.

Donald H. Raether is Chief Radar Mechanic in the Army. He is now stationed in Germany.

Mr. Wally Hammerberg teaches woodwork and drawing at Highland Park, Illinois. He is also line coach for varsity football and sophomore basketball coach. Mrs. Hammerberg is the former Norma Nelson.

Mrs. Jeanne Kane Stuckly formerly taught home economics at Cashton, Wisconsin. She is now a homemaker.

Joyce Fuhrmann Hicks teaches rural vocational home economics at Grantsburg, Wisconsin.

Clifford Sorensen teaches a general comprehensive shop at Centuria, Wisconsin; he is also the high school band director.

Richard Maliszewski is head of the printing department at the Oshkosh School of Vocational and Adult Education. He is working on the American Legion Committee for the coming state convention at Oshkosh, Wisconsin.

R. J. Sutton teaches general metals at Dauphin Collegiate and Technical Institute at Manitoba, Canada. He is a member of the Vestry of

St. Pauls Anglican Church, and co-leader of the Young Peoples Organization.

Jack Bongey is a printing instructor at the Eastern Junior High School at Louisville, Kentucky.

Jacques H. Beers teaches woodwork at Hadley Technical High School in St. Louis, Missouri. He has been active in boy scout work for 22 years.

Mrs. Rose Mary Albert Wise enjoys being a homemaker in Appleton, Wisconsin.

Kenneth R. Krohn is now a millwork estimator and also does some drafting for the E. W. Schmeling and Sons, Ind. at Rockford, Illinois.

Gerhard Nelson teaches at the St. Paul Vocational school in St. Paul, Minn.

Melvin Olson teaches at Milwaukee, Wisconsin.

Norman Anderson is an instructor at St. Paul, Minnesota.

Mrs. Delores Eggesbecht Fergis is an instructor of home economics at Monawa, Wisconsin.

Mrs. Ray Ferlwiler is a homemaker at Algoma, Wisconsin.

Jack Postman teaches elementary school industrial arts in Waukegan, Illinois.

Marion Lee (M. S.) teaches at Washington State College in Pullman, Washington.

Harold W. Osborn teaches high school woodwork at Mattoon, Illinois.
